

**Stephanie Walker** has been in the real estate business for more than 3 decades. That's a lot of material for use in her energetic and informative classes. Her experiences, both in the field and volunteering at all levels of the REALTOR® association, give her plenty of real life, in the trenches, stories to supplement her courses with actual scenarios that bring relevance, substance, and humor to attendees. Attendees remark that sessions with Stephanie are enjoyable, informative, interactive and full of examples that are relevant to the issues they face on a daily basis. She has found a way to make education fun!
