*Honorable members of the Housing and Economic Development Committee,
My name is {insert your name} and I am a Maine REALTOR® and property owner of {XXX rental units/properties} in {area where you provide housing}.*

I am strongly urging you to vote “Ought Not to Pass” on LD 1806. Maine’s current housing challenges relate directly to supply. We do not have enough housing and need to develop more. LD 1806 does not address this issue, nor will it result in new units being brought to the market. LD 1806 will deter housing providers. Significant limitations and excessive restrictions for failure to comply discourage providers and risk reducing the overall availability of essential housing. I urge the committee to shift their focus to housing policies that could more proactively address our state’s housing shortage such as:

- the development of housing of all types,*
- rental assistance programs,*
- continued tax incentives that make housing developments and access to housing more attainable for Mainers.*

A rental registry will not solve our state’s housing shortage, today or tomorrow. I strongly urge you to vote no on LD 1806. Thank you for your time and service to our state.
